

OUR FACILITIES

Harbor-UCLA Medical Center

Harbor-UCLA Medical Center is one of only five level one trauma centers in Los Angeles County. The 389-bed hospital is the cornerstone of healthcare services for more than 700,000 residents in the greater South Bay catchment area. Since 1946, the hospital has served the Southwestern region of Los Angeles County, providing high quality healthcare to every patient regardless of ability to pay. Harbor-UCLA supports 51 residency and fellowship training programs with over 300 full-time faculty.

Emergency/Trauma and Surgery Building

The state-of-the-art Emergency/Trauma and Surgery Building opened in April, 2014. The emergency department is divided into four main areas: adult acute emergency, rapid medical evaluation (adult), observation “gold” unit (adult), and a separate 18-bed pediatric emergency department. There is a unique 7-suite “trauma alley” connecting the adult ED and pediatric ED, with 2 suites reserved for pediatrics. A separate adolescent psychiatry ED opened in April 2018. There were approximately 78,000 emergency department visits last year, and 24,000 pediatric ED visits. There are ED-assigned social workers and pharmacists, and 2 adult ED and 1 pediatric ED attending supervising residents at all times.

Los Angeles Biomedical Research Institute

Harbor-UCLA is also home to the Los Angeles Biomedical Research Institute (LA BioMed), one of the largest independent, not-for-profit biomedical research institutes in the United States.

Children's Hospital of Orange County

The Children's Hospital of Orange County (CHOC) 22,000 square foot Julie and George Argyros Emergency Department, Orange County's only dedicated pediatric emergency department and pediatric trauma center, features 31 treatment rooms, and cares for over 80,000 patients per year. All PED attendings are pediatric emergency medicine board-certified.
