

PED ARTs & CRAFTs

How to make your own Tongue depressor puppet made from stuff found around the ED.

1. Collect Supplies:

Trauma Shears

Assorted Googly Eyes

Tongue Depressors

Wooden q-tips

Sharpie (various colors)

White board markers work too.

Pipe Cleaners

White Glue or Hot Glue or

Derma-bond (note this is prohibitively expensive, not recommended)

Paper clips (glasses)

Kelly Clamps/Iris scissors

Colorful Co-Band

2. Cut the depressors as shown

3. Color in the mouth (B)

4. Glue head (C) to Mouth (B)

5. Lay body (A) on top of Mouth (B)

6. Glue a wrapper/paper around the two sticks together (note only glue to the front of the body)

7. Try out the sliding mechanism

8. Add eyes and nose (use scraps of depressors for nose and eyebrows, or just use a pen)

9. Add details!

10. Try to make yourself... or co workers!
